LOG OF OIL OR GAS WELL

LOCATE WELL CORRECTLY

The information given in this log is for the condition of the well as it was when the log was made. It is not intended to be a permanent record of the well, but a record of its condition at the time the log was made. The information given in this log is for the condition of the well as it was when the log was made. It is not intended to be a permanent record of the well, but a record of its condition at the time the log was made.

NOTE: Electric log on this well has not yet been received. Will forward to you immediately upon its receipt.

IMPORTANT WATER SANDS

Well fractured 8-11-55 with 10,000 gallons and 10,000 sand. Casing record.

NOTE: Electric log on this well has not yet been received. Will forward to you immediately upon its receipt.

Well fractured 8-11-55 with 10,000 gallons and 10,000 sand. Casing record.

NOTE: Electric log on this well has not yet been received. Will forward to you immediately upon its receipt.

HISTORY OF OIL OR GAS WELL

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "struck", or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of charges. If bridges or bridges were put in the well, state their size and location. If the well has been dynamited, give date, size, position, and number of charges. If bridges or bridges were put in the well, state their size and location.
