(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

December 15th, 1957

Iverson-Federal
Well No. 1 is located 640 ft. from N line and 660 ft. from E line of sec. 30
N 1/2 Sec. 30 138 335 N 1/2
(Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wildcat Lea New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3751 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We set a cement plug from 4595 to 4545 feet with 20 sacks of cement; then filled the hole with mud laden fluid and set a cement plug from 2760 to 2710 feet, and a cement plug from 1560 feet to 1520 feet. We then filled the hole with mud laden fluid to the surface, set a cement plug, and placed a 4-inch marker in the plug. We then cleaned the location and left the ground in its original condition.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Hudson & Hudson, Inc.
Address 1310 Electric Building
Port Worton, Texas
