То	Mr. R. S. Blynn	Date July 34 7194
From	J. D. Duncan	OFFICE
College	Watter of Intention to Brill Lea-State & Wall No.	· CE

Enclosed in quadruplicate are New Mexico Oil Conservation Commission Forms C-101, Notice of Intention to Drill Lea-State A Well No. 4, 1650° south of the Merth line, and 530° East of the West line of Section 8, T-17-8, R-34-B.

We propose on the oil string to coment bottom with 150 sacks and perforate casing on top of salt section and squeeze with 100 sacks, which is in accordance with recent conversation with you.

Since this procedure is different from past procedure, I believe that you should personally submit these forms to Mr. Roy Yarbrough for approval, at which time any discussion regarding this procedure could be explained to him.
