RE: State Section 27 #1
 Unit B, Section 27, T18S, R35E

Gentlemen:

In April 1991 we approved your proposed recompletion of the above-referenced well from a South Vacuum Devonian oil well to A Devonian salt water disposal well as authorized by R-9474.

So far we have received no report of this work being completed. If work has been done, please file necessary reports. If it has not, please advise status and future plans for this well.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
 Supervisor, District I

ed

August 5, 1992

Dear Mr. Sexton:

We have not filed/worked over subject well. The funds were not appropriated for this workover and, if in the near future we can receive appropriations, the workover would be done, if permit is still effective. Please advise if this approval can be left open and the time frame we are looking at. Thanks you for your assistance.

Kaye Pollock, Reg. Tech.
