

Levington New Mexico,
July 13 1931.

Dr. E.H.Wells,
State Geologist,
State Land Office
Santa Fe, N.Mex.

Dear Dr. Wells,

Re Hobbs High No.1 well in Sec.35,
Twp 18S, Rge 38E., the State files here contain
only Notice of Intention to Drill and a Photo-
static copy of the bond. I have been unable to
find copy of Mr. Sullivan's letter to which you
refer.

Mr. Sullivan informed me the log of this
well and all other necessary reports were
sent to Mr. Halley who forwarded them to your
office. These I assume you have received.

Investigation shows the rig to be
standing and all regulations possible have
been complied with. This location is on fee
land. Mr. Sullivan carefully watched the
plugging of this well and he states it was
properly done. This bond should be released.

Very truly yours,
