

8-29
In the morning of 8/29, 1972, the author and his wife, Mrs. J. C. Tucker, left Hobbs, New Mexico, at 8:00 AM for the field. The weather was clear and the temperature was 74°F. The wind was light and from the west. The terrain was mostly flat with some low hills in the distance. The vegetation was sparse and consisted of grasses and small shrubs. The soil was sandy and light-colored. The author collected several samples of soil and rocks for analysis. The trip was very pleasant and the scenery was beautiful. The author returned to Hobbs at 5:00 PM. The total time spent in the field was 9 hours.

8/30
