January 19, 1949

Miss Clarene Gardner  
Oil Conservation Commission  
Hobbs, New Mexico

Dear Clarene:

With reference to the correspondence with Argo Oil Corp. concerning transfer of some of their leases, we received a reply from them stating that the Texas-State B No. 1, NE/4 SW/4 section 16, T.20 S, R.32 E had been plugged. They state, "the well in the NE/4 SW/4 section 16 was our B-1 which was plugged in 1944 and we have in our file here plugging record approved by Roy Yarbrough on August 22, 1944, he being Deputy Inspector."

Would you please look in your files and make a copy of the approved plugging for us, please? Thanks a lot.

Sincerely,

*Betty*
