Re: Notices to drill  
I. W. Lovelady  
Lea County-Potash area

Gentlemen:

Attached are two notices on locations filed for Mr. I. W. Lovelady in the potash area in Section 16 T20 South Range 32 East, NMPM, Lea County, New Mexico.

I am enclosing copies of letters which were sent to the two potash companies involved, International Minerals and Chemical Corporation and National Potash Company, by registered mail. Return receipts will be furnished.

A letter from Mr. A. L. Porter, Jr. advises that this 80 acres is within one-half mile of the potash "five year development" plan.

We have requested these companies to let us know by phone or letter whether or not these locations can be approved.

Yours very truly,

OIL REPORTS AND GAS SERVICES

  
(Mrs. W. L. Smith)
