#### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We have abandoned our plan to drill the above well deeper, due to the fact we were unable to get the 4" marker out of the 5" casing and therefore could not enter the old hole as per our plans. 4" marker has been replaced according to regulations.
