7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The current TD is 3690'. A Form C-108 "Application for Authorization to Inject" has been submitted for this well. If the application is approved, an attempt will be made to inject water at the pressure requested. If the zone will not take water, the well will be deepened to the middle Seven Rivers (proposed TD 4000 feet). The offsetting operators in this pool are injecting into this interval as zero wellhead pressure (Texaco, Inc. - B.V. Lynch "A" Federal wells #10 and #11).

This proposed deepening will commence within one week of receipt of an approved Form C-108.

8. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
