- New Construction
- Non-Routine Fracturing
- Water Shut-Off
- Conversion to Injection
- Dispose Water

13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Burk Royalty Co. bought this lease from Dan Berry. The Milner #4-C was classified as a disposal well at the time. The #4-C injects into a zone that we produce in the other Milner wells. At the time the permit was granted to make #4-C a disposal well, it didn't matter whether it was classified as injection or disposal as there was no royalty reduction program in place. Because the injection supports the zone we produce, we would like the classification of this well to be changed from water disposal to water injection. Should you have any questions about this matter, please contact the undersigned.
