PO BOX BRC
Wichita Falls TX 76307-7507

Attn: Susan

The following wells have been reviewed by our District Geologist and, as per your phone conversation with Karen Sharp February 28, 1995, these wells should be amended to pool code 96090 rather than 96141 based on the reported injection perforations:

W H Milner Federal #4	30-025-02507	C-35-20S-34E
Hanson "C" #4	30-025-20559	K-23-20S-34E
Neal #3	30-025-02501	A-35-20S-34E

Please reflect the "new" pool code on current C-115 reports as well as any amended reports for 1994 submitted after this date. Our Service Center will move the reported 1994 volumes so that amended reports for the entire year will not be required. If perforations are added at a later date, the wells will be re-evaluated at that time.
