Oil Conservation Commission
Mr. A. L. Porter, Jr.
P. O. Box 2045
Hobbs, New Mexico

Dear Mr. Porter:

Gulf Oil Corporation's Lea State "DA" Well No. 1-H, 14-19S-36E, was drilled as a gas well in the Eumont Gas Pool. Upon completion the initial production was 48 barrels oil, no water in 24 hours with a Gas-Oil Ratio of 1104/1. In consideration of the low Gas-Oil Ratio this well will have to be reclassified as an oil well in the Eumont Pool.

Corrected forms C-104 and C-110 are attached herewith.

Yours very truly,

C. F. Taylor
Area Supt. of Prod.

WN
