

NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the _____

Amerada Petroleum Corporation

W.B. Byrd

1

NW 1/4 NE 1/4 Company or Operator 12 20 Lease Well No. 36 in the
Monument of Sec. _____, T. Lea, R. _____, N. M. P. M.,
_____ Field, _____ County.

The dates of this work were as follows: _____

January 3, 1937

Notice of intention to do the work was [was not] submitted on Form C-102 on _____ 19____

and approval of the proposed plan was [was not] obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

8 5/8" 32# 8-Thd. New Seamless casing was set in this well at 2359' and cemented by the Hallibarton method with 500 sacks.

Casing and fittings were tested with 1200# pump pressure and allowed to stand undisturbed for thirty minutes. No drop in pressure resulted so the cement was then drilled out of the casing and the same test of 1200# pump pressure again applied and allowed to stand undisturbed for thirty minutes. No drop in pressure resulted so the drilling was then resumed.

RECORD OF RESEARCH ACTIVITIES

This record is to be filled out by the principal investigator of the project. It should be filled out at the end of each semester. The information should be given in detail and should include a description of the work done, the results obtained, and the progress made. It should also include a list of the publications resulting from the work.

1. Description of the project

State the title of the project and the name of the principal investigator. Also state the date when the project was started and the date when it was completed.

Title of project: _____

Name of principal investigator: _____

Date project started: _____

Date project completed: _____

Name of sponsor: _____

Name of institution: _____

2. Summary of the work done. This should include a description of the work done, the results obtained, and the progress made. It should also include a list of the publications resulting from the work.

3. List of publications. This should include a list of the publications resulting from the work. It should include the title of the publication, the author(s), and the journal in which it was published.

4. List of other work. This should include a list of other work done by the principal investigator during the period of the project. It should include the title of the work, the author(s), and the journal in which it was published.

5. List of other projects. This should include a list of other projects in which the principal investigator has been involved during the period of the project. It should include the title of the project, the name of the principal investigator, and the date when it was started and completed.

6. List of other activities. This should include a list of other activities in which the principal investigator has been involved during the period of the project. It should include the title of the activity, the name of the principal investigator, and the date when it was started and completed.

7. List of other awards. This should include a list of other awards received by the principal investigator during the period of the project. It should include the name of the award, the name of the principal investigator, and the date when it was received.

8. List of other honors. This should include a list of other honors received by the principal investigator during the period of the project. It should include the name of the honor, the name of the principal investigator, and the date when it was received.

9. List of other degrees. This should include a list of other degrees received by the principal investigator during the period of the project. It should include the name of the degree, the name of the principal investigator, and the date when it was received.

10. List of other positions. This should include a list of other positions held by the principal investigator during the period of the project. It should include the name of the position, the name of the principal investigator, and the date when it was held.

11. List of other activities. This should include a list of other activities in which the principal investigator has been involved during the period of the project. It should include the title of the activity, the name of the principal investigator, and the date when it was started and completed.

12. List of other awards. This should include a list of other awards received by the principal investigator during the period of the project. It should include the name of the award, the name of the principal investigator, and the date when it was received.

13. List of other honors. This should include a list of other honors received by the principal investigator during the period of the project. It should include the name of the honor, the name of the principal investigator, and the date when it was received.

14. List of other degrees. This should include a list of other degrees received by the principal investigator during the period of the project. It should include the name of the degree, the name of the principal investigator, and the date when it was received.

15. List of other positions. This should include a list of other positions held by the principal investigator during the period of the project. It should include the name of the position, the name of the principal investigator, and the date when it was held.
