DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

A Notice of Intention to Drill was submitted on 9-7-61 to drill this well at a location of 660 ft. from the North line and 660 ft. from the West line of Section 14-20-36, Lea County, New Mexico. As requested by the U.S.G.S., location was changed to 660 FNL & 640 FWL of Section 14. It is our intention to drill this well to a TD of approximately 3500' with rotary tools, in order to test the lbc formation for oil production.

No changes will be made in the casing or cement patterns.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
