Title _____

APPENDIX

APPENDIX A

The following table shows the results of the regression analysis for the dependent variable...

Table 1: Regression Results

Table with 4 columns: Variable, Coefficient, Standard Error, and t-statistic. Rows include variables like 'Age', 'Gender', 'Education', and 'Income'.

• The coefficient for 'Age' is positive and significant at the 1% level.

• The coefficient for 'Gender' is negative and significant at the 5% level.

• The coefficient for 'Education' is positive and significant at the 1% level.

• The coefficient for 'Income' is positive and significant at the 1% level.

APPENDIX B

The following table shows the results of the regression analysis for the dependent variable...

Table 2: Regression Results

Table with 4 columns: Variable, Coefficient, Standard Error, and t-statistic. Rows include variables like 'Age', 'Gender', 'Education', and 'Income'.

• The coefficient for 'Age' is positive and significant at the 1% level.

• The coefficient for 'Gender' is negative and significant at the 5% level.

• The coefficient for 'Education' is positive and significant at the 1% level.

• The coefficient for 'Income' is positive and significant at the 1% level.

• The coefficient for 'Age' is positive and significant at the 1% level.

• The coefficient for 'Gender' is negative and significant at the 5% level.

• The coefficient for 'Education' is positive and significant at the 1% level.

• The coefficient for 'Income' is positive and significant at the 1% level.

• The coefficient for 'Age' is positive and significant at the 1% level.

• The coefficient for 'Gender' is negative and significant at the 5% level.

• The coefficient for 'Education' is positive and significant at the 1% level.

• The coefficient for 'Income' is positive and significant at the 1% level.

• The coefficient for 'Age' is positive and significant at the 1% level.
