Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Attention: C. M. Rieder

Gentlemen:

Reference is made to your letter of April 13, 1955, regarding the reclassification of our Federal Fopeano A/C 1, Well No. 4, located in the SE/4 SE/4 of Section 26, T-20-S, R-36-E, Lea County, New Mexico, from the Eunice Monument Oil Pool to the Eumont Gas Pool. In accordance with your letter which states that even though the reclassification was made by the Commission that it would be necessary for Humble to file the usual application for approval of a non-standard gas proration unit, we submit the following information:

1. The non-standard gas proration unit consists of the SE/4 of the SE/4 of Section 26, T-20-S, R-36-E, Lea County, New Mexico. The unit size is 40 acres and all acreage is contiguous.
2. The non-standard proration unit lies wholly within a single governmental section.
3. The entire non-standard gas proration unit may reasonably be presumed to be productive of gas.
4. The length and width of the non-standard gas proration unit is 1320 feet.
5. Humble Oil & Refining Company has full interest in proposed non-standard gas proration unit.
6. All offset operators have been notified of this application by registered mail.
