Re: Application for Approval of a
Non-Standard Gas Proration Unit
for the Applicant's Seale (Federal)
No. 2 Well, Eumont Pool, as Provided
for Under the Provisions of
Paragraph 5 (b) of the NMOCC Order
No. R-520

Gentlemen:

The Atlantic Refining Company respectfully requests administrative approval under the provisions of Rule 5 (b) of NMOCC Order No. R-520 for a non-standard gas proration unit for its Seale (Federal) No. 2 well which is a newly completed gas well located 1980' FS & WL of Section 34, T-20S, R-36-E, Eumont Pool, Lea County, New Mexico. The proposed non-standard gas proration unit is to consist of the 160 acres comprising the SW/4 of the described section.

In support of this request, it is pointed out that the proposed unit conforms with the requirements of the said Rule 5 (b) in all respects as follows:

1. Said non-standard gas proration unit consists of contiguous quarter-quarter sections.
2. Said non-standard gas proration unit lies wholly within a single governmental section.
3. The entire non-standard gas proration unit may reasonably be presumed to be productive of gas.
4. Neither the length nor width of the non-standard gas proration unit exceeds 5,280 feet.
5. Copies of this application have been furnished by registered mail to all operators owning interest within the section in which this non-standard gas proration unit is situated, and all operators within 1,500 feet of said well.

*we will send
letter with order
to receive DC of
NSP for same 160 acres
granted in R-520
for well #1*

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the specific procedures and protocols that must be followed to ensure that all records are properly maintained and updated. This includes regular audits and reviews to verify the accuracy of the data.

3. The third part of the document provides a detailed overview of the various systems and tools used to manage and store the records. It describes how these systems are integrated and how they facilitate the efficient handling of information.

4. The fourth part of the document discusses the role of the staff responsible for maintaining the records. It highlights the need for ongoing training and development to ensure that they are equipped with the necessary skills and knowledge to perform their duties effectively.

5. The fifth part of the document addresses the security and protection of the records. It outlines the measures in place to prevent unauthorized access, loss, or damage to the data, and describes the protocols for handling any security incidents.

6. The sixth part of the document discusses the process of archiving and long-term storage of records. It explains how records are categorized and stored to ensure they are easily accessible and retrievable for future reference.

7. The seventh part of the document provides a summary of the key points discussed and offers recommendations for further improvements to the record-keeping process.

8. The eighth part of the document concludes with a statement of commitment to maintaining the highest standards of record-keeping and transparency in all organizational activities.

9. The final part of the document includes a list of references and a glossary of terms used throughout the document. This provides additional context and clarifies any technical or specialized terminology.
