HISTORY OF OIL OR GAS WELL

6—9745

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of drilling, reasons for the work and its results. Whether the casing was changed in the casing, state fully, and if the casing was left in the well, give size and depth. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing. If abandoned, give date, size, position, and number of sacks.

This well drilled as per specifications noted on approved Notice of Intention to Drill.
