STATEMENT OF WORK

UNITED STATES

DEPARTMENT OF THE INTERIOR

GEOLOGICAL SURVEY

STANDARD METHODS AND REPORTS ON WELLS

Standard methods and reports on wells are essential for the collection and interpretation of data on wells. The following methods and reports are recommended for use by field personnel:

1. Standard Methods for the Determination of Water Quality in Wells (SM-1)

2. Standard Methods for the Determination of Water Quantity in Wells (SM-2)

The location of the ground floor above sea level is indicated on the map.

DETAILS OF WORK

The following details of work are to be completed by the contractor:

1. Determine the location of the ground floor above sea level.

2. Determine the location of the ground floor above sea level.

3. Determine the location of the ground floor above sea level.

4. Determine the location of the ground floor above sea level.

5. Determine the location of the ground floor above sea level.

6. Determine the location of the ground floor above sea level.

7. Determine the location of the ground floor above sea level.

8. Determine the location of the ground floor above sea level.

9. Determine the location of the ground floor above sea level.
