DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Request is made for permission to produce this well to obtain gas for gaslift purposes on the Humble State Aggies, a mile to the East of the Fopeano lease. Whatever oil is produced incident to the gas production will be separated from the gas in a high pressure separator. The gas produced will be metered and reported in conformity with existing regulations. Every effort will be made to utilize the gas in such a way as to conform with good gas lift production practice.
