1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the East (CLPE) in the United States. This is a serious omission, as the CLPE is a well-known and active organization which has been operating in the United States for many years. It is therefore essential that the Commission be kept informed of its activities and any information which may be available to the Government of the United States regarding its operations.
