REPORT OF THE COMMISSIONER OF PLANT INDUSTRY

The following report was prepared by the Commissioner of Plant Industry, United States Department of Agriculture, for the purpose of presenting to the public a summary of the work of the Bureau of Plant Industry during the year 1917.

Summary of the Work of the Bureau of Plant Industry

The Bureau of Plant Industry, United States Department of Agriculture, was organized in 1902, and since that time has been engaged in a wide variety of work. The principal objects of the Bureau are to conduct researches in plant pathology, to collect and distribute seeds and plants, and to disseminate information regarding the culture and uses of plants. The Bureau has been successful in accomplishing these objects, and its work has been of great benefit to the agricultural industry of the United States.

RESEARCHES IN PLANT PATHOLOGY

The Bureau of Plant Industry has been engaged in a wide variety of researches in plant pathology. The principal objects of these researches are to determine the causes of plant diseases, to determine the methods of transmission of plant diseases, and to determine the methods of control of plant diseases. The Bureau has been successful in accomplishing these objects, and its work has been of great benefit to the agricultural industry of the United States.

COLLECTION AND DISTRIBUTION OF SEEDS AND PLANTS

The Bureau of Plant Industry has been engaged in a wide variety of work in the collection and distribution of seeds and plants. The principal objects of this work are to collect seeds and plants from foreign countries, to distribute seeds and plants to the public, and to maintain a collection of seeds and plants for the purpose of research.

The Bureau of Plant Industry has been successful in accomplishing these objects, and its work has been of great benefit to the agricultural industry of the United States.

The Bureau of Plant Industry has been engaged in a wide variety of work in the dissemination of information regarding the culture and uses of plants. The principal objects of this work are to publish reports, to give lectures, and to disseminate information in other ways.

The Bureau of Plant Industry has been successful in accomplishing these objects, and its work has been of great benefit to the agricultural industry of the United States.
