FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

June 12th 1937 th3 10 3/4" 52.75# 8thd New South Chester 4 1/2 lapweld steel casing was cemented in Red Bed at 293' with 185 sacks cement & 300# CC by the Halliburton Cementing process.

Propose to drill plug and test at 530 PM June 14th 1937.

DUPLICATE

GULF OIL CORPORATION GYPSY DIVISION

Approved JUN 1937, 19 except as follows:

Company or Operator  
 By G. C. Cummings  
 Position District Supt.  
 Send communications regarding well to  
 Name G. C. Cummings.  
 Address Hobbs, New Mexico.

OIL CONSERVATION COMMISSION,  
 By Guy Shepard R.M.  
 Title 1937.

# THE HISTORY OF THE

## REPUBLIC OF

### THE UNITED STATES OF AMERICA

The history of the Republic of the United States of America is a story of growth, struggle, and achievement. From the first European settlements to the present day, the nation has evolved through a series of challenges and triumphs. The early years were marked by the search for a stable government, leading to the signing of the Declaration of Independence in 1776 and the adoption of the Constitution in 1787. The subsequent decades saw the expansion of the territory and the development of a unique American identity. The Civil War, fought between 1861 and 1865, was a pivotal moment in the nation's history, as it resolved the issue of slavery and preserved the Union. The Reconstruction era that followed was a period of significant change and progress, as the nation sought to rebuild and integrate the newly freed slaves. The late 19th and early 20th centuries were characterized by rapid industrialization and the rise of a powerful middle class. The Progressive Era saw the implementation of reforms aimed at addressing the social and economic problems of the time. The 1920s and 1930s were marked by the Great Depression and the New Deal, which reshaped the role of the federal government in the economy. The mid-20th century saw the nation's involvement in World War II, which solidified its position as a global superpower. The Cold War era was a period of tension and competition with the Soviet Union, leading to the development of nuclear weapons and the space race. The 1960s and 1970s were a time of social and political upheaval, with the Vietnam War and the civil rights movement. The 1980s and 1990s saw the end of the Cold War and the emergence of a new global order. The 21st century has been a period of rapid technological advancement and global interconnectedness, with the United States continuing to play a leading role in the world.
