NOTICE OF INTENTION TO ABANDON WELL			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 1 is located 330 ft. from N line and 1690 ft. from W line of sec. 28
NW/4, Sec 28 19-S 37-E NM
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Eunice-Monument Lee County New Mexico
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We intend to drill this well to a total depth of 3930 feet to test and produce oil from the Grayburg formation.

The casing we plan to run is as follows: 1.) 8 5/8" surface casing, 12 pounds wt. per foot, J-55, seamless, 240'.

2.) 4 1/2", 9 1/2 pounds per foot weight, J-55, seamless, production string, 67 3/4'.

The surface casing will be cemented with enough cement to circulate to surface of the ground. The production string of casing will be cemented with enough cement to cover the pipe up to about 1600' above bottom.

We request permission to complete and produce this well from the Grayburg formation, Monument Field, as indicated above.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
