State "T" #6-B 20-19-37

Gentlemen:

Your proposed repair procedures on the above-referenced wells submitted to me on July 14th are satisfactory with the exception of item (3) on State O #4. I would request that you use enough cement on the bradenhead squeeze that you are sure is adequate to go down as far as your tracer fluid goes.

Please submit these procedures on Form C-103.

Very truly yours,

OIL CONSERVATION DIVISION
