PHYSICS 551

PHYSICS 551 is a course in quantum mechanics. It covers the basic principles of quantum mechanics, including wave mechanics, matrix mechanics, and the theory of angular momentum.

The course is designed for students who have completed a course in classical mechanics and are interested in the foundations of quantum mechanics.

The course is taught by Professor [Name], who is an expert in the field of quantum mechanics. The course is held in the Physics Department building.

The course is a required course for students in the Physics Department who are interested in pursuing a Ph.D. degree in physics.

The course is also a recommended course for students in other departments who are interested in quantum mechanics.
