17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The above well was plugged and abandoned on 12-23-71 in the following manner:

1. Loaded hole with mud laden fluid.
2. Plugged producing perforations with bridge plug rather than a 50 sack cement plug formerly approved. (Oral approval on 12-20-71 from Joe Ramey, NMOCC Supervisor).
3. Could not unseat packer set at 3625', left in hole. Ran and set CIBP on wire line at 3575' above existing perforations and dumped 4 sack cement plug on top of CIBP to 3555'.
4. Loaded hole with mud laden fluid.
5. Dumped 10 sack cement surface plug on top of 7" casing from ground level to 30' with 4" dry hole marker extending 4' above ground to designate a plugged and abandoned well.
6. Location will be cleared of all equipment and debris and your office notified for final inspection.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
