

NE MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL

1. The first step in the process of the scientific method is to ask a question.

2. The second step is to do background research.

3. The third step is to form a hypothesis.

4. The fourth step is to test the hypothesis by conducting an experiment. The fifth step is to analyze the data and draw a conclusion.

5. The sixth step is to communicate the results of the experiment. The seventh step is to repeat the experiment to verify the results.

6. The eighth step is to use the results of the experiment to make a prediction. The ninth step is to test the prediction.

7. The tenth step is to use the results of the experiment to make a generalization.

8. The eleventh step is to use the results of the experiment to make a theory.

9. The twelfth step is to use the results of the experiment to make a law.

10. The thirteenth step is to use the results of the experiment to make a model.

11. The fourteenth step is to use the results of the experiment to make a theory. The fifteenth step is to use the results of the experiment to make a law. The sixteenth step is to use the results of the experiment to make a model.

12. The seventeenth step is to use the results of the experiment to make a theory. The eighteenth step is to use the results of the experiment to make a law. The nineteenth step is to use the results of the experiment to make a model.

13. The twentieth step is to use the results of the experiment to make a theory. The twenty-first step is to use the results of the experiment to make a law. The twenty-second step is to use the results of the experiment to make a model.

14. The twenty-third step is to use the results of the experiment to make a theory. The twenty-fourth step is to use the results of the experiment to make a law. The twenty-fifth step is to use the results of the experiment to make a model.

15. The twenty-sixth step is to use the results of the experiment to make a theory. The twenty-seventh step is to use the results of the experiment to make a law. The twenty-eighth step is to use the results of the experiment to make a model.

16. The twenty-ninth step is to use the results of the experiment to make a theory. The thirtieth step is to use the results of the experiment to make a law. The thirty-first step is to use the results of the experiment to make a model.

17. The thirty-second step is to use the results of the experiment to make a theory.

18. The thirty-third step is to use the results of the experiment to make a law.

19. The thirty-fourth step is to use the results of the experiment to make a model.

20. The thirty-fifth step is to use the results of the experiment to make a theory.

21. The thirty-sixth step is to use the results of the experiment to make a law. The thirty-seventh step is to use the results of the experiment to make a model.
