INSTRUCTIONS

This form shall be executed and filed in QUADRUPLICATE with the District Office of the Oil Conservation Commission, covering each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one proration period, the operator shall in lieu of filing a new certificate notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (a) The transporter is changed or
- (c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil or gas, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The above well was abandoned in May - 1953 because of excessive water. At that time the well was produced by gas lift. New well since drilled have shown oil production higher in the zone where this well was completed.

A Baker C.I. Retainer was set in the 5" liner at 3782' and perforations below, 3794 - 3800' and 3852 - 3857' were squeezed with 78 sacks of cement to 2250 psi.

The well was perforated in the top of the 5" liner from 3755' to 3778' with 92 cone shot. 2-1/2" tubing was installed with a 2-1/4" tubing liner pump and a pumping unit installed.

2/13/55 - well pumped 49 BOPD and 350 BWPD - no choke - 13-64"SPM.

Form C-116 is being presented with a request for a new allowable for this well.
