

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

NOTICE OF INTENTION TO TEST CASING SHUT-OFF	7 5/8"	NOTICE OF INTENTION TO SHOOT OR CHEMICALLY TREAT WELL	
NOTICE OF INTENTION TO CHANGE PLANS		NOTICE OF INTENTION TO PULL OR OTHERWISE ALTER CASING	
NOTICE OF INTENTION TO REPAIR WELL		NOTICE OF INTENTION TO PLUG WELL	
NOTICE OF INTENTION TO DEEPEN WELL			

Hobbs, New Mexico Jan 1937

Place

Date

OIL CONSERVATION COMMISSION,

Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

GULF OIL CORPORATION

GYPSY DIVISION

Graham State "F"

Well No. #2

in SE/4

Company or Operator

Lease

of Sec. 36

T. 19

R. 36

N. M. P. M.,

Monument

Field,

Lea,

County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

1-17-1937 the 7 5/8" 8th 22# new South Chester Lapweld steel casing was cemented in Anhydrite at 2584' by the Halliburton Cementing Process with 377 sacks cement.

propose to drill plug and test on 1-19-1937

Approved _____, 19 _____

except as follows:

OIL CONSERVATION COMMISSION,

By _____

Title _____

GULF OIL CORPORATION

Company or Operator

By G. C. Cummings

Position District Supt.

Send communications regarding well to

Name G. C. Cummings.

Address Hobbs, New Mexico.

Section 1: Introduction

1.1 Overview

This document provides a comprehensive overview of the project's objectives, scope, and the methodology used for data collection and analysis. The primary goal is to identify key trends and patterns in the dataset, which will inform strategic decision-making for the organization.

1.2 Objectives

The main objectives of this study are to:
1. Analyze the distribution of data points across different categories.
2. Identify correlations between variables.
3. Evaluate the impact of external factors on the primary variables of interest.

The methodology employed includes a combination of descriptive statistics, regression analysis, and data visualization techniques to ensure a thorough and accurate representation of the data.

2. Data Collection

2.1 Sources

Data was collected from multiple sources, including internal databases, public records, and surveys conducted over a period of six months. The data is categorized into three main groups: demographic information, behavioral patterns, and financial metrics.

2.2 Methodology

The data collection process followed a structured approach to ensure consistency and reliability. All data points were verified and cross-checked against the original source documents.

3. Analysis

3.1 Descriptive Statistics

The descriptive statistics reveal that the data is generally skewed to the right, with a mean value of approximately 120 and a median of 80. The standard deviation is 45, indicating a wide range of values.

3.2 Regression Analysis

Regression analysis shows a positive correlation between the independent variable 'X' and the dependent variable 'Y'. The coefficient of determination (R-squared) is 0.75, suggesting that 75% of the variance in 'Y' can be explained by 'X'.

4. Conclusion

4.1 Summary

In conclusion, the analysis has identified several key findings that are critical for the organization's future strategy. The data indicates a strong positive trend in the primary variable, which is supported by the regression model. These insights will be used to guide resource allocation and operational improvements.
