17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 11CS.

Moved in and rigged up service unit 5-29-79. Conducted Radioactive Tracer Survey to locate channel. It was found that Grayburg perforations were channeling to Zone I. The RT Survey had a negative showing in its locating a channel between Zone II and Zone I. Grayburg perforations 3986-4014 were squeezed with 100 sacks Thickset cement and fifty sacks Class C cement plus additives. After installing larger pumping equipment, the well was returned to production.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
