

NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

PHILOSOPHY

1. The first part of the paper discusses the nature of the problem and the various approaches that have been taken to solve it. It is shown that the problem is not as simple as it first appears and that a careful analysis is required.

2. In the second part, we consider the implications of the results for the theory of the subject. It is argued that the findings have important consequences for our understanding of the phenomenon in question.

3. The third part of the paper is devoted to a detailed examination of the evidence. It is shown that the data are consistent with the hypothesis advanced in the previous sections.

4. Finally, we discuss the broader significance of the work. It is suggested that the results may have implications for other areas of the field and that further research is warranted.

5. The paper concludes with a summary of the main findings and a list of references. It is hoped that the work will stimulate further discussion and research on this important topic.

6. The author wishes to thank the following individuals for their helpful comments and suggestions: [Name], [Name], and [Name].

7. This work was supported by a grant from the National Science Foundation. The author is grateful to the NSF for its generous support.

8. The author is also indebted to the [Institution] for providing the facilities and resources necessary for the completion of this work.

9. The author's address is [Address]. He can be reached at [Phone Number] or [Email Address].

10. The author's research interests are in the area of [Field]. He has published several papers on this subject and is currently working on a book.

11. The author is a member of the [Society] and the [Association]. He is also a frequent speaker at conferences in the field.

12. The author's research is ongoing and he is always interested in hearing from other researchers in the field. He can be contacted at [Address].
