Re: My proposed well in NW, NW of  
Section 20, T 20 S, R 34 E,  
Lea County, New Mexico.

Dear Sir:

Your Mr Brown of the Hobbs office referred me to you for the names of the Potash companies that have the acreage around my proposed well site. As you know, I need to write to those companies for the waivers and notifications that you require.

I do appreciate your time and troubles expended in my behalf.

Very truly yours,

*Walter W. Krug*

Re: A proposed 3700 foot well in the  
NW/4 of NW/4, Section 20, T 20 S,  
R 34 E, Lea County, New Mexico.

Dear Mr Harroun:

I am in the process of starting a well on the above subject acreage and the U.S.G.S. informed me that you had the potash lease, NEW MEXICO 029245, covering this section and for a mile around in all directions. As you know I need either a waiver from you, that you have no objections to me drilling a well (using the U.S.G.S. piping requirement), or I have a ten (10) day waiting period. I would like you to consider signing the waiver below, to preclude the ten day waiting period.

Your positive consideration and prompt reply will be sincerely appreciated.

Very truly yours,

*Walter W. Krug*
