 PROPOSED CASING AND CEMENT PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	SACKS OF CEMENT	EST. TOP
17-1/2	13-3/8	48	401	350	Surface
11	8-5/8	24 & 32	4680	850	2530' *
7-7/8	5-1/2	15.5 & 17	3567 - 7742 top - bottom	600	3600'

*Squeezed 8-5/8" x 13-3/8" annulus with 110 sacks of cement through perfs at 407'.

This well was drilled by Pennzoil United Inc. in 1972 and plugged and abandoned. It was re-entered by Adobe Oil and Gas Corp. in January 1979 and again plugged and abandoned. Adobe ran the 5-1/2" casing string, cut it off at 3567' and squeezed the 8-5/8" x 13-3/8" annulus.

We propose to clean out the well to the cement plug at about 6000' and selectively perforate and acidize the Lower Andres for water disposal between 4900' and 5600'. A packer will be set at 4800' on a combination string of 2-7/8" and 3-1/2" plastic lined tubing.

Blowout preventors: 3000# preventors

ABOVE SPACE DESCRIBE PROPOSED PROGRAM; IF PROPOSAL IS TO DEEPEN OR PLUG BACK, GIVE DATA ON PRESENT PRODUCTIVE ZONE AND PROPOSED NEW PRODUCE ZONE. GIVE BLOWOUT PREVENTER PROGRAM, IF ANY.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

All distances must be from the outer boundaries of the Section.

Operator Union Seaboard Corporation			Lease Bordages			Well No. 1		
Unit Letter N	Section 27	Township 19-S	Range 38-E	County Lea				
Actual Footage Location of Well: 660 feet from the South line and 1980 feet from the West line								
Ground Level Elev. 3581.4	Producing Formation Disposal			Pool Wildcat			Dedicated Acreage: Disposal Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.
