(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*
Fasken Oil and Ranch, Ltd. is requesting permission to vent casinghead gas for a period of one year. This well currently makes 20 BOPD and 17 MCFPD. The nearest pipeline connection is a GPM pipeline located in the NE/4 of Section 35, T19S, R32E, Lea County, New Mexico. This is 4.3 miles from this well. The cost to install this pipeline is estimated at \$106,000, and is uneconomical for such a small volume of gas.

Copy of Form C-129 submitted to the State of New Mexico is attached.
