Dear Sir:

Gulf Oil <sup>209</sup>Corporation requests your administrative approval for an amendment to NSP-~~129~~ for a 160-acre non-standard proration unit in the Eumont Gas pool. The unit consists of the W/½ of the E/½ of Section 24-T19S-R36E, Lea County, New Mexico, and will be simultaneously dedicated to our Graham State (NCT-C) #1, located 1980' FSL & 1980' FEL, Section 24-T19S-R36E, and our Graham State (NCT-C) #10, located 990' FNL & 1980' FEL, Section 24-T19S-R36E. The Graham State (NCT-C) #10 is a new well.

In support of this application we present the following facts:

1. There are no other wells in this non-standard proration unit that produce from the Eumont Gas pool.
2. The attached plat shows the 160-acre unit and the well outlined.
3. All offset operators have been furnished a copy of this application.

Your early consideration will be appreciated.

Yours very truly,

  
R. C. ANDERSON
