Mr. Jerry Sexton
PO Box 1980
Hobbs, NM 88240

Dear Jerry:

In response to your question concerning liquids drop out in the reservoir on the Jordan "B" No. 1, our plans call for the sampling of separator fluids on Wednesday, April 15, 1992 for recombination.

I will let you know the results of the test when they become available in approximately three weeks. I have attached some additional test data for your review.

Sincerely,

A handwritten signature in cursive script that reads 'Steven P. Guidry'.
