This location is in the area shown by N.M. Potash as LMR but under lease to Miss Chemical. My records show that both Sec 31 & 32 have been drilled with deep Morrow and this location is between two existing wells. I would say approve if - both N.M. Potash and Miss Chem. agree. My opinion is that the LMR has already been violated by numerous drill holes.

RESPONSE:

The above-referenced location is in LMR ----- Yes ☒ No ☐

The above-referenced location is within the buffer zone----- Yes ☒ No ☐
