RE: Shallow Oil Test Well Location
330' FSL and 990' FWL
Section 32, T22S, R33E, NMPM
Lea County, New Mexico
T205

*see revision
dated 12-10-92
Correcting Twp.*

Dear Mr. Hansen:

By this letter, New Mexico Potash Corporation waives any objections to the above referenced Shallow Oil Test Well Location, 330 FSL & 990' FWL, Section 32, T22S, R33E, NMPM, Lea County, New Mexico.

Please be advised that this location is within our current "LMR" and subject to the New Mexico OCD Rule R-111-P. New Mexico Potash does not object to this location due to the presence of existing oil and gas wells in this area. However, future locations in this area will be allowed according to the New Mexico Oil Conservation Division rules and the current plans to mine these Potash reserves.

In the future, please include the APD, and a plat of the proposed location so that we will have the necessary information required by Rule R-111-P.

If you have any questions or need any additional information, please contact me at your convenience.

Sincerely,
New Mexico Potash Corporation

Tim Woome
Chief Mine Engineer
