ADMINISTRATIVE APPLICATION FOR
NON-STANDARD GAS PRORATION UNIT
AND UNORTHODOX GAS WELL LOCATION
BLINEBRY OIL AND GAS POOL
554' FNL AND 554' FEL
SECTION 28, T-21-S, R-37-E NMPM
LEA COUNTY, NEW MEXICO

State of New Mexico
Energy, Minerals & Natural Resources Dept.
Oil Conservation Division
P.O. Box 2088
Santa Fe, New Mexico 87504

Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for an 80-acre Non-Standard Gas Proration Unit in the Blinebry Oil and Gas Pool, comprising the E/2 of the NE/4, of Section 28, T-21-S, R-37-E, Lea County, New Mexico, to be assigned to Chevron's Eunice King Well No. 13. In support thereof, Chevron U.S.A. Inc. states the following facts:

- 1) As a result of adding perforations in the Blinebry pay it is necessary to reclassify Chevron's Eunice King Well No. 13 from a Blinebry Oil well to a Blinebry Gas well. This well is located 554 feet FNL, and 554 feet FEL of Section 28, T-21-S, R-37-E, Lea County, New Mexico. Due to this reclassification this well's location is unorthodox.

The subject well is dually completed in the Tubb Gas Pool and the Blinebry Oil Pool. The Eunice King Well No. 13 currently has 40-acres in the Blinebry Oil pool dedicated to it. We now desire to re-classify this well as a Blinebry gas well and dedicate 80-acres comprising the E/2 of the NE/4 of Section 28, T-21-S, R-37-E to this well.

- 2) The proposed Non-Standard Gas Proration Unit will meet the requirements for a Non-Standard Gas Proration Unit as follows:
- a. The proposed unit consists of 80-acres that are contiguous.
 - b. The proposed unit lies wholly within a single government section in the Blinebry Gas Pool.
 - c. The entire proposed unit may reasonably be presumed to be productive of gas from the Blinebry Gas Pool.
 - d. A copy of this application will be sent by certified mail to all offset operators and operators owning interests in the proposed unit's boundary and shall serve as notification.

In support of this application, attached is a plat outlining the proposed Non-Standard Gas Proration Unit, and showing all offset properties and wells.

In view of the facts submitted, Chevron U.S.A. Inc. requests that administrative approval of the subject 80-acre Non Standard Gas Proration Unit be granted. We also request approval of the unorthodox gas well location under the provisions of Rule 104. If further information is required, please contact myself or David Bohon at (915) 687-7246 or (915) 687-7148, respectively.

Very Truly Yours

Alan W. Bohling

Gentlemen:

Attached is a copy of Chevron's administrative application for NMOCD approval of a Non-Standard Gas Proration Unit and Unorthodox Gas well location in the Blinebry Oil and Gas Pool.

As a result of adding perforations in the Blinebry pay it is necessary to reclassify Chevron's Eunice King Well No. 13 from a Blinebry Oil well to a Blinebry Gas well. This well will be located 554 feet FNL and 554 feet FEL of Section 28, T-21-S, R-37-E, Lea County, New Mexico. This location becomes unorthodox as a result of reclassification.

To prevent waste, Chevron is requesting the NMOCD to grant approval to form a 80-acre gas proration unit comprising the E/2 of the NE/4 of Section 28, T-21-S, R-37-E, Lea County, New Mexico. This 80-acre gas proration unit will be formed by combining the 40 acres already dedicated to our Eunice King Well No. 13 occupying the NE/4 of the NE/4 of Section 28 with an additional currently undedicated 40-acres comprising SE/4 of the NE/4 of Section 28.

As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs. We would also request that you send a copy to Chevron U.S.A. Inc. in Midland. We have enclosed self addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.

Yours very truly,

A. W. Bohling
