RE: THE PROPOSED REGULATION OF THE CARRYING CAPACITY OF THE GREAT LAKES.

DEAR SIR:

I have the honor to acknowledge the receipt of your letter of the 2nd inst. and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully, yours, very truly, J. B. HARRIS, Secretary.

The following is a summary of the proposed regulation of the carrying capacity of the Great Lakes, as submitted by the Great Lakes Fishery Commission.

The Commission has determined that the carrying capacity of the Great Lakes for fish is approximately 1,000,000 tons per year.

This capacity is based on the assumption that the fishery will be managed in a sustainable manner, and that the fishery will be able to produce a surplus of fish for export.

The Commission has also determined that the carrying capacity of the Great Lakes for fish is approximately 1,000,000 tons per year.

This capacity is based on the assumption that the fishery will be managed in a sustainable manner, and that the fishery will be able to produce a surplus of fish for export.

The Commission has also determined that the carrying capacity of the Great Lakes for fish is approximately 1,000,000 tons per year.

This capacity is based on the assumption that the fishery will be managed in a sustainable manner, and that the fishery will be able to produce a surplus of fish for export.
