Re: Recompletion to Jalmat Gas Pool  
Harry Leonard NCT-D #12-C  
Sec. 3, T22S, R36E

Gentlemen:

Your intention to recomplete the Harry Leonard NCT-D #12 as a gas well in the Jalmat Pool has been approved for recompletion work only.

Before the well can be produced from the Jalmat Gas Pool the following stipulations must be met:

- 1) Obtain approval of the non-standard location and simultaneous dedication of this well to an established 480 acre Jalmat gas proration unit consisting of the SE/4 Sec. 33, SW/4 Sec. 34, T21S, R36E, and NW/4 Sec. 3, T22S, R36E (approved by R-1770).
- 2) Establish a common lease name for all wells on this proration unit. The work on this well had to be approved under the lease name of Harry Leonard NCT-D #12 since change of lease name must be filed on Form C-104 and we did not ever receive this change.

Very truly yours,

OIL CONSERVATION DIVISION
