OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

**Hobbs, New Mexico**  
(Place)

**July 2, 1956**  
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

**Cities Service Oil Company** State **"C"** Well No. **1** in **L**  
 (Company or Operator) (Unit)

**NW**  $\frac{1}{4}$  **SW**  $\frac{1}{4}$  of Sec. **16**, T. **21-S**, R. **36-E**, NMPM, **Emont** Pool  
 (40-acre Subdivision)

**Lea** County.

**FULL DETAILS OF PROPOSED PLAN OF WORK**  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

State "C" No. 1 is in the Emont Pool and produces from the Grayburg formation. In November 1953, this well was Dolofrac with 5000 gallon and 5000# of sand. During operations that followed a swab was stuck in the tubing and the packer was found to be stuck. Several attempts to unseat the packer have failed. Numerous obstructions as well as cavings and sand is believed to be restricting production.

It is proposed to move in workover unit, clean-out to total depth and acidize with 500 gallon of mud acid. It is believed that production will be increased materially when this work is completed.

Approved..... **JUL 3 1956**....., 19.....
