

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

General Instructions

Instructions to the Field Agent

The following instructions are given to the field agent in order to guide him in the collection of data for the purpose of determining the relative importance of the various factors which enter into the production of the crop in question. The agent is to observe the conditions of the soil, the weather, the condition of the crop, and the condition of the farmer, and to record the results of his observations in the form of a report.

Indicate the nature of the soil in the following table:

Soil	Color	Texture	Structure	Moisture	Temperature
1. Topsoil					
2. Subsoil					
3. Underlying material					

Indicate the nature of the weather in the following table:

Weather	Direction of wind	Force of wind	Amount of clouds	Amount of rain	Amount of snow
1. Wind					
2. Clouds					
3. Rain					
4. Snow					

Indicate the nature of the crop in the following table:

Crop	Condition of soil	Condition of weather	Condition of crop	Condition of farmer
1. Soil				
2. Weather				
3. Crop				
4. Farmer				

Indicate the nature of the soil in the following table:

Soil	Color	Texture	Structure	Moisture	Temperature
1. Topsoil					
2. Subsoil					
3. Underlying material					

Indicate the nature of the weather in the following table:

Weather	Direction of wind	Force of wind	Amount of clouds	Amount of rain	Amount of snow
1. Wind					
2. Clouds					
3. Rain					
4. Snow
