OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

**Astec Oil and Gas Co.** State **2** Lot **5**  
Company or Operator  
of Sec. **2** T. **21S** R. **67E** N. M. P. M. **North Brunson** Field.  
**Lea** County.

### FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was originally drilled to a TD of 6753' and found non-productive in the Drinkard zone. It was temporarily abandoned 2-23-50 (See form C-105, Well Record, dated 3-29-51)

It is now planned to drill deeper to a depth of approximately 9000' or until granite is reached. The well now has 13-3/8" surface casing cemented 152' and 9-5/8" intermediate casing cemented at 3005'. Both strings of casing are cemented to the surface. If the well is found productive after deepening, 5-1/2" 15.5 lb casing will be cemented at an appropriate depth.

Approved \_\_\_\_\_ 19\_\_\_\_\_  
except at follows:
