

OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

Miscellaneous Reports on Wells

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. This section also touches upon the legal implications of failing to maintain such records, which can lead to severe consequences for individuals and organizations alike.

2. The second part of the document delves into the specific requirements for record-keeping, including the types of documents that must be retained and the duration for which they should be kept. It provides a detailed overview of the various categories of records, such as financial statements, contracts, and correspondence, and outlines the best practices for organizing and storing these documents to ensure they are easily accessible and secure.

3. The third part of the document addresses the challenges associated with record-keeping, particularly in the context of digital information. It discusses the risks of data loss, corruption, and unauthorized access, and offers strategies to mitigate these risks. This includes the use of secure storage solutions, regular backups, and the implementation of robust access controls to protect sensitive information.

4. The fourth part of the document provides a comprehensive overview of the legal and regulatory framework governing record-keeping. It examines the various laws and regulations that apply to different types of records and industries, and highlights the key provisions that organizations must adhere to. This section also discusses the role of government agencies in enforcing these regulations and the potential penalties for non-compliance.

5. The fifth part of the document offers practical advice and guidance for organizations looking to improve their record-keeping practices. It provides a checklist of key areas to focus on, such as developing a clear record-keeping policy, training staff on proper procedures, and regularly reviewing and updating records. This section also discusses the benefits of investing in record-keeping technology and the importance of staying up-to-date with the latest industry trends and best practices.

6. The sixth part of the document concludes with a summary of the key points discussed throughout the document. It reiterates the importance of record-keeping as a fundamental aspect of good governance and risk management, and encourages organizations to take a proactive approach to maintaining accurate and reliable records. The document also provides a final call to action, urging readers to implement the recommendations and best practices outlined throughout the text.
