1. The first part of the report  
 is a general description of the  
 project and its objectives.

The second part of the report  
 describes the methods used in the  
 study. This includes a description of the  
 data sources, the sample size, and the  
 statistical methods used to analyze the data.  
 The third part of the report  
 presents the results of the study. This  
 includes a description of the findings and  
 a discussion of their implications.

The fourth part of the report  
 is a conclusion and a list of references.

The fifth part of the report  
 is a list of references.
