Re: Exception to Order Num-
ber 553, Sanedan Oil Corp-
oration Parks Well No. 1

Gentlemen:

Sanedan Oil Corporation respectfully requests exception to the "No -
Flare Order" for their Parks Well No. 1, located 330' FSL and FAL
Section 14-22S-37E, Lea County, in the Penrose - Skelly Pool. Sub-
ject well is the only Penrose - Skelly Pool well on the lease.

The well flows three times a day on intermittent control. The gas
volume is approximately 14,000 cubic feet per day, and the gas - oil
ratio is 2094 to 1. The distance from the gas separator, which is
located at the well, to the nearest gathering line is approximately
300'. A copy of letter from gas purchaser refusing to connect to
the well is attached along with a surface plat.

Yours very truly,

SANEDAN OIL CORPORATION
