

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

DUPLICATE

## MISCELLANEOUS NOTICES

RECEIVED  
FEB 19 1947  
RECEIVED

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Ronan Drilling Company Elliott Well No. 1-B-15 in NE  
Company or Operator Lease  
of Sec. 15, T. 22-S, R. 37-E, N. M. P. M., Drinkard Field.  
Lee County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

## FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We have proposed to perforate the 3-1/2" CG casing from 5170' to 5180' and from 5140' to 5142' and squeeze each of these perforations separately with 50 sacks of common cement. This will be done in an effort to eliminate any water encroachment into the Padlock Zone from above or below. It is possible that the water now being produced by our Elliott 1-B-15, a twin well, might be coming into the Padlock Zone from the bore hole of Elliott 1-B-15 in spite of an apparently successful casing cementing job. We then desire to plug the casing of Elliott 1-B-15 from the total depth of 6982' back to 6145'.

Approved FEB 19 1947, 19  
except as follows:
